Note: For receipt effects, positive figures indicate lower receipts. For outlay effects, positive figures indicate higher outlays. For net costs, positive figures indicate higher deficits.

¹The single income-driven repayment plan proposal has sizable interactive effects with the proposals to eliminate subsidized loans and Public Service Loan Forgiveness. These effects, \$19.2 billion over 10 years, are included in the single income-driven repayment plan subtotal.

²Estimates were not available at the time of Budget publication.

³This funding is included within the estimates of the proposal to repeal and replace Obamacare.

⁴The estimates for this proposal include effects on receipts. The receipt effects included in the totals above are as follows:
